### Notice to Plainville Residents Sewer Project Underway Anticipated Schedule

The Board of Water and Sewer Commissioners wish to inform you that the sewer construction project in the west side of Plainville has been started as of **Thursday November 10, 2011**. The **Revoli Construction Company** of Franklin, Mass is the General Contractor. The construction is underway on **Warren Street** beginning near West Bacon Street and will proceed westerly toward High Street stopping near Edgewood Drive. **Construction in Warren Street is expected to last through the month of November into early December: weather permitting.**

During normal working hours **Monday through Friday; 7:00 AM to 4:00 PM**, Warren Street will be **open to local traffic only**, for safety concerns due to the narrow and winding nature of the street. Every attempt will be made to allow for school buses and emergency vehicles to pass thru the area as necessary. Residents of Warren Street and the surrounding areas are asked to use alternative routes to avoid the daily shut down of the street. The street will be open each day for the nighttime hours. Detour signs have been posted at certain locations.

**A second crew** from **Revoli** is anticipated to begin work in **Riley Street** during the week of November 14 to 18. This crew will start at Sidney Street and progress westerly toward Fletcher Street and Carleton Road, during the hours of 7:00 AM and 4:00 PM. We ask that anyone normally travelling these streets be cautious of the construction area and seek alternate routes to avoid the construction and possible delays. **Again, every attempt will be made to allow for school buses and emergency vehicles to pass as necessary during the construction.**

Please call our office at the numbers located above if there are any questions about this beginning schedule, and keep checking back with us for updates and information about the schedule and the project in general.

Streets to be serviced during this project will be: West Bacon, Warren, Mathurin, Fletcher, Carleton, Elizabeth, Riley, Fremont, Zellar and Valerie. The Contractor will continue working as weather permits until snowfall; and will shut down during the hard winter months and will start-up again in early spring as weather permits.

Thank you for your patience and cooperation during this Sewer Construction Project.
